"Be the change that you want to see in the world."

Summary

Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, specializing in building responsive, user-friendly web interfaces. Proficient in frameworks like React and Bootstrap, with experience in translating design mockups into functional, interactive websites. Skilled in optimizing performance, debugging issues, and enhancing UI/UX to deliver seamless user experiences.

Expanding expertise into backend development by learning Express.js and related technologies to become a well-rounded full-stack developer. Passionate about continuous learning, problem-solving, and staying up to date with the latest industry trends to refine and expand technical skills.

Skills

Back-end	ExpressJS, Git, GitHub
Front-end	HTML5, CSS3, React, Bootstrap
Programing	JavaScript, Python
Design	Figma, Canva, Adobe Photoshop & Illustrator
Languages	English, French, Afrikaans

Experience

Ouicestnous — *Bellville, Cape Town, South Africa*
Web Developer — *Dec. 2022 - Jan. 2025*

- Designed and developed the company's eCommerce website, optimizing user experience with a visually appealing and intuitive interface.
- Created and implemented client websites with a focus on responsive and interactive front-end development using HTML, CSS, JavaScript, and Bootstrap.
- Developed wireframes and design mockups using Adobe Photoshop, Adobe Illustrator, Figma, and Canva to enhance UI/UX consistency and functionality.

Civil Designer — *Tokia, Cape Town, South Africa*
QA Engineer — *Nov. 2023 - Dec. 2023*

- Conducted regression testing to verify software functionality before each new version release, ensuring reliability and performance.
- Followed detailed test instructions using Microdont Edge, executing tests to identify and report defects.
- Validated software updates across different engineering disciplines to maintain stability and optimal performance.

Education

CPUT (Cape Peninsula University of Technology

- Bachelor of Technology (BTech) in Civil Engineering — *Jan. 2023 - Dec. 2023*
- National Diploma (NDip) in Civil Engineering — *Jan. 2017 - Dec. 2020*

Certificates

2023 **Programming Foundations: Fundamentals**, LinkedIn Learning

2025 **JavaScript Essential Training**, LinkedIn Learning

2023 **Excel Essential Training (Microsoft 365)**, LinkedIn Learning
